3. GOVERNANCE

Disclosure 2-9 **Governance structure and composition**

Lotus Bakeries adopted the Corporate Governance Code 2020 as a reference code, in accordance with Article 3:6(2) of the CAC and the Royal Decree of 12 May 2019 laying down the corporate governance code to be complied with by Belgian listed companies.

Lotus Bakeries' Corporate Governance Charter, which outlines our corporate governance policy and the internal rules of procedure of the Board of Directors, the Committees and the Executive Committee, was discussed by the Board of Directors and approved on 2 April 2020.

The Board of Directors chose to consolidate its current single-tier governance model as referred to in Article 7:85 et seq. of the CAC, since the functioning of the Board is highly effective and transparent. The powers relating to day-to-day management versus supervision/control are clearly defined, the Board is kept thoroughly informed at all times by the CEO and the EXCO and all necessary decisions are approved and/or ratified.

The highest governance body is the Board of Directors.

The Board of Directors installed an Audit & Sustainability Committee and a Remuneration and Nomination Committee.

As set out below, Lotus Bakeries follows all principles contained in the Corporate Governance Code 2020, except for the following two provisions:

- The Ordinary General Meeting of Shareholders of 18 May 2021 reappointed Benoit Graulich BV as independent director, since all of the specific independence criteria of Article 3.5 of the Belgian Corporate Governance Code 2020 were fulfilled but one, i.e. the criterion that a director must have held the position of non-executive director for no longer than 12 years. This was not considered to detract from the independence of Benoit Graulich (and Benoit Graulich BV), who in carrying out his duties as director always demonstrates an independent and critical attitude and has confirmed that he has no relationship whatsoever with the Company, the executive management, the reference shareholder or other shareholders owning more than 10% of the shares which could jeopardise his independence.
- Article 7.12 concerning the possibility of clawing back variable remuneration paid to the members of the executive management or withholding the payment of variable remuneration. The Board of Directors is not convinced of the enforceability of a claw-back clause in employment contracts or service agreements with management companies, which cannot be amended unilaterally. Nor does it see the need for such a claw-back clause since, according to the remuneration policy, the variable remuneration is allocated solely on the basis of verified, audited and published results.

For the composition of the Board of Directors and its Committees we refer to the Annual Report 2023, Chapter 4 'Report of the Board of Directors', Corporate Governance Declaration, pages 183-189.

In the past, to determine our sustainability priorities, we regularly conducted a 'single' materiality assessment.</p> <p>As today's world is changing rapidly, we are faced with a range of new challenges in the business and along the value chain. We interact with many parties, so it is essential to get a full understanding of the impact of our operations and snacks on the world. In order to confirm or reconsider the priorities of our sustainability programme, Lotus Bakeries in 2023 performed a broad and in-depth assessment using the double materiality lens, reviewing a list of topics from both a financial and an impact materiality perspective.</p> <p>We engaged with a large number of stakeholders on these topics. The outcome will serve as the basis to select our strategic ESG platforms within the 'Care for Today, Respect for Tomorrow' programme, as well as guide us on which ESRS standards to report on for the upcoming CSRD reporting. This assessment will provide strategic guidance on sustainability matters, and how to integrate this with our ambition: offering a versatile range of branded snacks for every consumption occasion to consumers worldwide.</p> <p>We refer to the Annual Report 2023, Chapter 2, Our Materiality, pages 72-79.</p>
